CSC is part of the logistic platform in Amerigo Vespucci freight village in Tuscany.

CSC Vespucci offers an important service for national and international operators of the agri-food sector in response to the growing request for

refrigerated spaces.

The company offers bonded warehouses furnished with cold stores (temperature controlled) and pallet shelves (drive-in system). There is also an office block and a laboratory for phytosanitary controls requ-

sted by customs.

CSC is where production and consumption meet: starting from piers, the company assures customs operations, high quality health checks and storage, leading to a better distribution.
